track blind

Designed to perform

eZIP®

Experience true outdoor comfort

Looking for the ultimate way to bring the outdoors in? Whether you want to shield the weather for the ideal outdoor kitchen, enclose the pergola or create your own alfresco courtyard, eZIP® track blinds are the perfect solution.

Designed to perform in the harsh Australian environment, eZIP®'s robust high density aluminium frame has exceptional built in flex resistance to ensure problem free blind motion.

With its patented multi-directional tension setting, eZIP® track blinds always look good with optimal blind alignment for a taut blind fabric result that compliments any outdoor setting.

With a slim and sleek fully enclosed 135mm square pelmet headbox, either extruded aluminium or powder coated steel, eZIP® is the compliment to modern linear design trends.

Why **eZIP**®?

VERSATILE HEADBOX SOLUTIONS

Fully enclosed slim and sleek 135mm headbox in both Colorbond® or premium extruded aluminium.

FABRIC LAY FLAT TECHNOLOGY

Self lubricating polymer zip designed for problem free blind rolling with no fabric distortion.

eZIP® MOTION TECHNOLOGY

Floating side channel with fully concealed side retention for ultimate performance and protection.

ADJUSTABLE SIDE CHANNEL

Unique patented multi-direction tension adjustment for optimal blind alignment and problem free installation.

EVENLY WEIGHTED BOTTOM RAIL

Optimal down force fabric tension for smooth blind rolling motion.

eZIP® Versatility

eZIP® track blinds are designed to perform with three different types of control mechanisms. Italian crank operated gearboxes, spring assisted tension control or motorisation.
